Sinopsis

There is andincreasing need for students whoare approaching graduation to be ableto interact effectively with written and oral material that they encounter in their fields of study. Institutions are preparing their students to respond to new materials as more informationin English becomes availablewold-widethrough professional journals, newspapers, televisión, and the Internet. Therefore, thegoal of the University is to provide students with mechanisms that allow them to interact and respond critically to English texts and to develop theircommunicativecompetente so that thay can search for better proffesional opportunities in nacional and internacional context. increasing need for students whoare approaching graduation to be ableto interact effectively with written and oral material that they encounter in their fields of study.
