Bamboo furniture: Manufacturing Process Manual

Autor

Virginia Carmiol Umaña

Sinopsis

The manual aims to raise awareness among Costa Ricans about the valuable work carried out by the Technical Crafts Mission of Taiwan. It originated from a research project conducted by the Department of Industrial Design at the Instituto Tecnológico de Costa Rica, focusing on nonconventional materials like bamboo, rattan, and wicker. The manual addresses basic needs identified in the productive sector and aims to promote the production of bamboo craft products. Divided into two parts, it covers topics such as the intrinsic value of bamboo, species prevalent in Costa Rica, silviculture, furniture construction, and design principles specific to bamboo furniture.
